Package Contents

- 1 x Air Purifier
- 1 x True HEPA Filter (Pre-Installed)
- 1 x AC Power Adapter
- 1 x User Manual

Specifications

Power Supply	Input: AC 100–240V, 50/60Hz, 0.5A
	Output: DC 12V, 1.5A
Rated Power	15W
Effective Range	15 m ² / ≤ 161 ft ²
Operating Conditions	Temperature: -10°C–40°C / 14°F–104°F
	Humidity: < 85% RH
Noise Level	25–36dB
Standby Power	< 0.5W
Dimensions	20 x 20 x 33 cm / 7.9 x 7.9 x 12.9 in
Weight	1.5 kg / 3.3 lb

SAFETY INFORMATION

To reduce the risk of fire, electric shock, or other injury, follow all instructions and safety guidelines.

General Safety

- **Only** use your air purifier as described in this manual.
- **Do not** use without removing the plastic wrap from the filter. The purifier will not filter air, and may overheat, causing a fire hazard.
- **Do not** use your air purifier outdoors.
- Keep your air purifier away from water, and wet or damp areas. **Never** place in water or liquid.
- **Do not** use in excessively humid areas.
- Keep your air purifier away from heat sources.
- **Do not** use where combustible gases, vapors, metallic dust, aerosol (spray) products, or fumes from industrial oil are present.
- Keep 5 feet away from where oxygen is being administered.
- Supervise children when they are near the air purifier.
- **Do not** place anything into any opening on the air purifier.
- **Do not** sit or place heavy objects on the air purifier.
- Keep the inside of the air purifier dry. To prevent moisture buildup, avoid placing in rooms with major temperature changes or underneath air conditioners.
- **Always** unplug your air purifier before servicing (such as changing the air filter).
- **Do not** use your air purifier if it is damaged or not working correctly, or if the cord or plug is damaged. **Do not** try to repair it yourself. Contact **Customer Support** (see page 13).
- Not for commercial use. Household use **only**.

AC Adapter and Cord

- Keep air purifier near the outlet it is plugged into.
- **Never** place the cord near any heat source.
- **Do not** cover the cord with a rug, carpet, or other covering. **Do not** place the cord under furniture or appliances.
- Keep the cord out of areas where people walk often. Place the cord where it will not be tripped over.

Back

Front, upside down

CONTROLS

On/Off Button

- Turns the air purifier on/off.

Fan Speed Button

- Cycles through fan speeds: I (low), II (medium), and III (high).

Sleep Mode Button

- Turns Sleep Mode on/off (see page 8).

Timer Button

- Cycles through timer options (see page 8).

Night Light Button

- Turns the night light on/off (see page 8).

Check Filter Indicator

- Lights up when the air filter should be checked (see [Check Filter Indicator](#), page 10).

Display Off Button

- Turns the display off.
- Tap any button (except ) to turn the display back on.

GETTING STARTED

1. Flip over the air purifier. Twist the filter cover cap anticlockwise to remove it and set it aside. [\[Figure 1.1\]](#)
2. Lift the filter cover off the purifier. [\[Figure 1.2\]](#)
3. Remove the filter from its plastic packaging and place the filter back into the purifier. [\[Figure 1.3\]](#)

Note: The filter does not have a top or bottom and can be installed either way.

Figure 1.1

Figure 1.2

Figure 1.3

GETTING STARTED (CONT.)

4. Replace the filter cover and the cap. Twist the cap clockwise to lock. *[Figure 1.4]*
5. Place the purifier on a flat, stable surface with the display facing up. Allow at least 38 cm / 15 in of clearance on all sides of the purifier. Keep away from anything that would block air flow, such as curtains. *[Figure 1.5]*

Figure 1.4

Figure 1.5

USING YOUR PURIFIER

1. Connect the AC power adapter to the air purifier. Plug into an outlet. *[Figure 2.1]*
2. Tap  to turn on the purifier. The fan will start on level I.
3. Optionally, tap  to change fan speed between I, II, and III.

Note:

- The indicators are not buttons and cannot be used to change the fan speed.
- The fan speed indicators will light up when activated.
- Fan speed III is the loudest, but cleans air the quickest.
- For best results, or to address a specific air quality issue such as smoke, run the air purifier at maximum speed (level III) for 15–20 minutes before using a lower speed.
- To effectively clean air, keep windows and doors closed while the air purifier is on.

4. Tap  to turn off the air purifier.

Figure 2.1

Memory Function

When the air purifier is plugged in, it will remember its previous fan speed setting.

USING YOUR PURIFIER (CONT.)

Sleep Mode

Sleep Mode operates quietly by using the lowest possible fan speed.

Tap  to turn Sleep Mode on/off.

Note:

- All indicators lower their brightness by $\frac{1}{3}$ when Sleep Mode is on.
- Tapping  will exit Sleep Mode.

Timer

You can set a timer for 2, 4, or 8 hours.

1. Tap  repeatedly to select a time.

Note:

- The indicators are not buttons and cannot be used to select a time.
- The timer indicators will light up blue when activated.

2. The air purifier will automatically power off once the timer is finished.
3. To cancel a timer, tap  until all timer indicators are off.

Note:

- You can change the fan speed at any time while the timer is on.
- The timer will restart if it is changed.

Night Light

Use 1 of 2 brightness levels.

1. Tap once to turn on the light.
2. Tap a second time to dim the brightness to half.
3. Tap a third time to turn off the light.

Note:

- The night light can be used any time the air purifier is plugged in, even if it is not on.
- The night light will remain on, even if you turn the display off.

ABOUT THE FILTER

The air purifier uses a 3-stage filtration system to purify air.

A. Nylon Pre-Filter

- Captures large particles such as dust, lint, fibers, hair, and pet fur.
- Maximizes the filter's life.

B. True HEPA Filter

- Removes at least 99.97% of airborne particles 0.3 micrometers (μm) in diameter.
- Filters small particles such as smoke, tiny dust particles, mold spores, bacteria, viruses, and allergens such as pollen, dander, and mites.

C. High-Efficiency Activated Carbon Filter

- Physically absorbs unwanted odors and fumes.
- Filters compounds such as formaldehyde, benzene, ammonia, hydrogen sulfide, and volatile organic compounds (VOCs).

ABOUT THE FILTER (CONT.)

Humidity

Moisture may damage the air filters. This air purifier should be used in an area with a humidity level below 85% RH. If you use the air purifier in excessively humid areas, the surface of the filter will become moldy.

Note: Water or moisture will allow mold to grow. Air purifiers cannot solve an existing mold problem, only remove mold spores and reduce odors.

Essential Oils

Do not add essential oils to the air purifier or air filter. The filter will become damaged by the oil and will eventually release an unpleasant smell. **Do not** use oil diffusers near the purifier.

KEEPING THINGS CLEAN

Cleaning the Air Purifier

- Unplug before cleaning.
- Wipe the outside of the air purifier with a soft, dry cloth. If necessary, wipe the housing with a damp cloth, then immediately dry.
- Vacuum the inside of the air purifier.
- **Do not** clean with abrasive chemicals or flammable cleaning agents.

When Should I Replace the Air Filter?

The filter should be replaced every 5–7 months. You may need to replace your filter sooner or later depending on how often you use your air purifier. Using your air purifier in an environment with relatively high pollution may mean you will need to replace the filter more often, even if  is off.

You may need to replace your filter if you notice:

- Increased noise when the air purifier is on
- Decreased airflow
- Unusual odors
- A visibly clogged filter

Note: To avoid shortening the life of your air purifier, **only** use a genuine Levoit Vista 200 True HEPA Replacement Filter. Visit **levoit.com** to purchase more filters for your air purifier.

- If your home has high air pollution, you may need to change your filter before  lights up.
- Remember to reset  after changing the filter.

KEEPING THINGS CLEAN (CONT.)

Check Filter Indicator

 will light up as a reminder to check the air filter. Depending on how much you use the air purifier, the indicator should turn on within 5–7 months. You may not need to replace your filter yet, but you should check it when  turns on.

Cleaning the Air Filter

The True HEPA Filter should be cleaned once a month to increase the efficiency and extend the life of your filter. Clean the inside and outside of the filter using a soft brush or vacuum hose to remove hair, dust, and large particles. **Do not** clean the filter with water or other liquids.

Resetting the Check Filter Indicator

Reset the Check Filter Indicator when:

- A.  lights up.
1. Replace the air filter.
 2. Turn on the air purifier.
 3. Press and hold  for 3 seconds.
 4.  will turn off when successfully reset.
- B. The air filter was changed before  lit up.
1. Press and hold  for 3 seconds. This will turn on .
 2. Press and hold  again for 3 seconds.
 3.  will turn off when successfully reset.

Replacing the Air Filter

1. Unplug the air purifier. Flip the air purifier over and remove the filter cover cap and filter cover (see [Getting Started](#), page 6).
2. Remove the old air filter.
3. Clean any remaining dust or hair inside the purifier using a vacuum hose. **Do not** use water or liquids to clean the purifier. *[Figure 3.1]*
4. Unwrap the new air filter and place it into the housing (see [Getting Started](#), page 6).
5. Replace the cover and cap. Plug in the air purifier.
6. Reset the Check Filter Indicator.

Figure 3.1

Storage

If not using the air purifier for an extended period of time, wrap both the purifier and the filter in plastic packaging and store in a dry place to avoid moisture damage.

TROUBLESHOOTING

Problem	Possible Solution
Air purifier will not turn on or respond to button controls.	Plug in the air purifier.
	Disconnect the AC power adapter from the air purifier and reconnect it.
	Check to see if the AC power adapter is damaged. If so, stop using the air purifier and contact Customer Support (see page 13).
	Plug the air purifier into a different outlet.
	Air purifier is malfunctioning. Contact Customer Support (see page 13).
Airflow is significantly reduced.	Make sure the filter is removed from its packaging and properly in place (see page 6).
	Tap  to increase the fan speed.
	Make sure there are at least 38 cm / 15 in of clearance on all sides of the air purifier.
	Replace the air filter (see page 10).
Air purifier makes an unusual noise while the fan is on.	Make sure the air filter is properly in place with plastic packaging removed (see page 6).
	Make sure the air purifier is operating on a hard, flat, even surface.
	Replace the air filter (see page 10).
	The air purifier may be damaged, or a foreign object may be inside. Stop using the air purifier and contact Customer Support (see page 13). Do not try to repair the air purifier.
Poor air purification quality.	Tap  to increase the fan speed.
	Make sure no objects are blocking the sides or top of the air purifier (the inlet or outlet).
	Make sure the filter is removed from its packaging and properly in place (see page 6).
	Close doors and windows while using the air purifier.
	Make sure the room is smaller than 15 m ² / 161 ft ² . The air purifier may not be as effective in larger rooms.
	Replace the filter (see page 10).

TROUBLESHOOTING (CONT.)

Problem	Possible Solution
Strange smell coming from the purifier.	Clean the filter or replace if necessary.
	Contact Customer Support (see page 13).
	Make sure not to use your purifier in an area with high humidity or while diffusing essential oils.
 is still on after replacing the air filter.	Reset the Check Filter Indicator (see page 10).
 has not turned on within 7 months.	 is a reminder for you to check the air filter and will light up based on how long the air purifier has been used (see page 10). If you don't use your air purifier often,  will take longer to turn on.
 turned on before 5 months.	 is a reminder for you to check the air filter and will light up based on how long the air purifier has been used (see page 10). If you run your air purifier frequently,  will turn on sooner.
Air does not flow evenly out of the air purifier.	This is due to the design of the air purifier. This is normal and will not affect the air purifier's efficiency.

If your problem is not listed, please contact **Customer Support** (see page 13).

WARRANTY INFORMATION

Terms & Policy

Arovast Corporation warrants all products to be of the highest quality in material, craftsmanship and service for a minimum of 2 years, effective from the date of purchase. Warranty lengths may vary between product categories. Should you encounter any issues or have any questions regarding your new product, feel free to contact our helpful Customer Support Team. Your satisfaction is ours!

CUSTOMER SUPPORT

Arovast Corporation

1202 N. Miller St., Suite A
Anaheim, CA 92806
USA
