READ AND SAVE THESE INSTRUCTIONS

SAFETY INFORMATION

To reduce the risk of fire, electric shock, or other injury, follow all instructions and safety guidelines.

General Safety

- **Only** use your air purifier as described in this manual.
- **Do not** use your air purifier outdoors.
- Keep your air purifier away from water, and wet or damp areas. **Never** place in water or other liquids.
- Keep your air purifier away from heat sources.
- **Do not** use where combustible gases or vapors, metallic dust, aerosol (spray) products, or fumes from industrial oil are present.
- Keep 5 ft / 1.5 m away from where oxygen is being administered.
- Supervise children when they are near the air purifier.
- **Do not** place anything into any opening on the air purifier.
- **Do not** sit or place heavy objects on the air purifier.
- Keep the inside of the air purifier dry. To prevent moisture buildup, avoid placing in rooms with major temperature changes.
- **Always** unplug your air purifier before servicing (for example, changing the filter).
- **Do not** use your air purifier if it is damaged or not working correctly, or if the cord or plug is damaged.
- **WARNING:** To reduce the risk of fire or electric shock, **do not** use this air purifier with solid-state speed controls (such as a dimmer switch).
- Not for commercial use. Household use **only**.
- **WARNING:** To reduce the risk of fire, electric shock or injury to persons, **do not** use replacement parts that have not been recommended by the manufacturer.

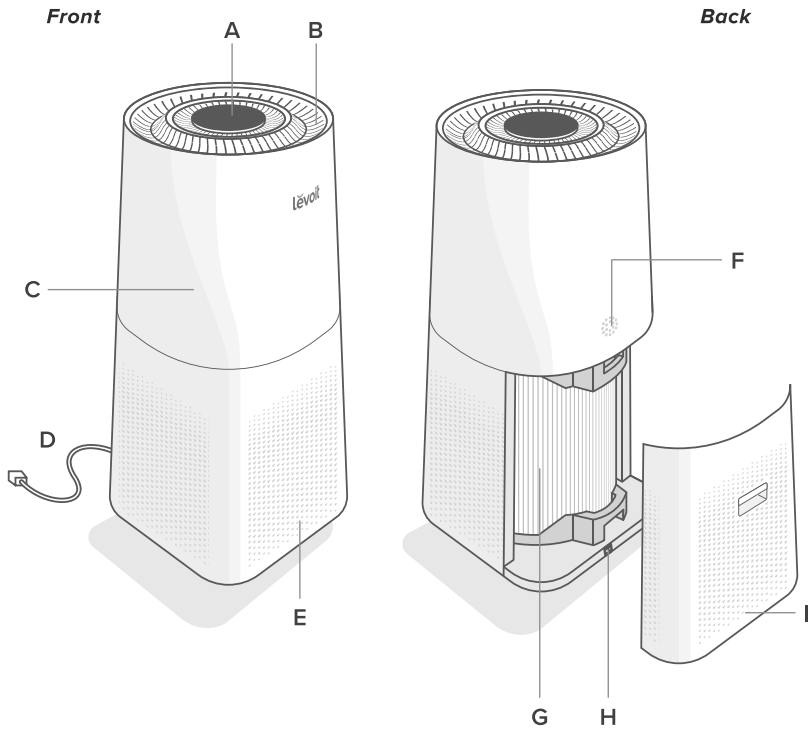

Plug & Cord

- Keep the air purifier near the outlet it is plugged into.
- **Never** place the cord near any heat source.
- **Do not** cover the cord with a rug, carpet, or other covering. **Do not** place the cord under furniture or appliances.
- Keep the cord out of areas where people walk often. Place the cord where it will not be tripped over.
- Your air purifier has a polarized plug (one prong is wider than the other), which fits into a polarized outlet only one way. This is a safety feature to reduce the risk of electric shock. If the plug does not fit, reverse the plug. If it still does not fit, **do not** use the plug in that outlet. **Do not** bypass this safety feature.

Do not try to repair it yourself. Contact **Customer Support** (see page 18).

USING YOUR AIR PURIFIER

General Operation

1. Place the air purifier on a level surface. Leave 15 in / 38 cm of clearance on all sides of the air purifier. [Figure 2.1]
2. Plug in. Tap  to turn on the air purifier. The fan will start automatically.
3. Optionally, tap  to change the fan speed. You can also select Auto Mode or Sleep Mode, or set a timer.
 - a. For best results, or to address a specific air quality issue such as smoke, run the air purifier at high speed for 15–20 minutes before using a lower speed or Auto Mode.
 - b. To effectively clean air, keep windows and doors closed while the air purifier is on.
4. Tap  to turn off the air purifier.

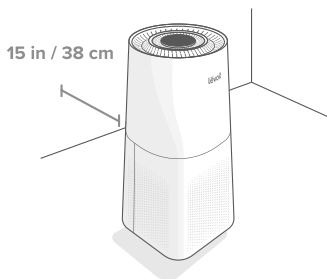

Figure 2.1

Auto Mode

Auto Mode adjusts the fan speed automatically based on air quality. For example, if the air quality is bad, the fan will be set to high speed.

- Tap  to turn Auto Mode on/off.
- Tapping  or  will also exit Auto Mode.

Sleep Mode

Sleep Mode uses the lowest possible fan speed to operate quietly.

- Tap  to turn Sleep Mode on/off.
- Tapping  or  will also exit Sleep Mode.

Air Quality Indicator

This indicator uses an automatic sensor to display the air quality.

Indicator Color	Air Quality	Fan Speed
Blue	Very Good	Sleep Mode
Green	Good	Low
Orange	Moderate	Medium
Red	Bad	High

USING YOUR AIR PURIFIER (CONT.)

PM2.5 Value & Air Quality

The PM2.5 value on the display shows the amount of particles (μg) that are detected within 1 cubic meter (m^3).

PM2.5 refers to particulate matter (PM) that is less than or equal to 2.5 micrometers (μm) in diameter. These particles, also known as “fine particles”, are so small that they can only be detected with an electron microscope, and stay in the air longer than heavier air particles such as dust and mold.

Your air purifier is equipped with a laser dust sensor that detects the amount of PM2.5 particles that are in a given space ($\mu\text{g}/\text{m}^3$). Generally, the lower the number, the better your air quality. A number above 135 indicates that there is an unhealthy amount of fine particles in the air.

Timer

You can set a timer between 1– 12 hours.

1. Tap  repeatedly (or press and hold ) to set a time.
2. Once you choose a time, the timer will flash 5 times and start counting down.
3. The air purifier will automatically turn off once the timer is finished.
4. To cancel a timer, tap  repeatedly until the timer reads “- - -”. The timer will flash 5 times to confirm cancellation.

Note:

- *You can change the fan speed at any time while the timer is counting down. The timer will work with any mode.*
- *Pressing  or unplugging the air purifier will cancel the timer.*

Memory Function

The air purifier will remember its programmed settings when turned off, and will resume these settings when it is turned back on. The air purifier must remain plugged in for the memory function to work.

Note: *The air purifier will not remember timers.*

ABOUT THE FILTER

The Combination Filter uses a 3-stage filtration system to purify air.

A. Pre-Filter

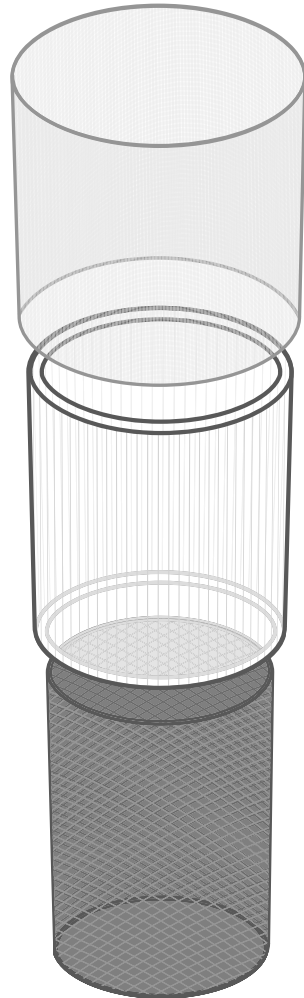

- Captures large particles such as dust, lint, fibers, hair, and pet fur.

B. Main Filter

- Filters small particles such as fine dust, smoke particles, and pollen and pet dander.

C. Activated Carbon Filter

- Physically adsorbs smoke, odors, and fumes.

CARE & MAINTENANCE

Cleaning the Air Purifier

1. Wipe the outside of the air purifier with a dry cloth. **Do not** clean with water or any other liquid to avoid risk of electric shock.
2. Clean the outside of the filter with a brush or vacuum hose each month to prevent buildup of hair or dust. **Do not** clean the filter with water or other liquids.

Check Filter Indicator

 will light up as a reminder to check the filter. The indicator is automatic. You may not need to change your filter yet, but you should check it when  lights up.

Resetting the Check Filter Indicator

Reset the Check Filter Indicator when:

-  lights up.
 1. Replace the filter (see page 13).
 2. Turn on the air purifier.
 3. Press and hold  for 3 seconds.
 4. The light will turn off after the filter indicator is successfully reset.
- The filter was changed before  lit up.
 1. Press and hold  for 3 seconds until  lights up.
 2. Press and hold  again for 3 seconds.
 3. The light will turn off after the filter indicator is successfully reset.

When Should I Replace the Filter?

The filter should be replaced every 6–8 months. You may need to replace your filter earlier or later depending on how often you use your air purifier. Using your air purifier in an environment with relatively high pollution may mean you will need to change the filter more often (even if the  is off).

You may need to replace your filter if you notice:

- Increased noise when the air purifier is on
- Decreased airflow
- Unusual odors
- A visibly clogged filter

Note: To maintain the performance of your air purifier, **only** use official Levoit filters. To buy replacement filters, visit Levoit's online store. Go to [levoit.com](https://www.levoit.com) for more information.

Storage

If not using the air purifier for an extended period of time, wrap the filter in plastic packaging and store in a dry place to avoid moisture damage.

CARE & MAINTENANCE (CONT.)

Replacing the Filter

1. Unplug the air purifier and remove the filter cover. [Figure 3.1]
2. Remove the old filter. [Figure 3.2]
3. Clean any dust or dirt from inside the housing. [Figure 3.3]
4. Unwrap the new filter and place it into the housing. Make sure the filter handle is facing out. [Figure 3.4]
5. Replace the filter cover onto the housing. [Figure 3.5]
6. Plug in and turn on the air purifier. Press and hold  for 3 seconds to reset it.

Register your products at <https://warranty.levoit.com/warranty> to stay up to date with important product information such as product updates, limited warranties, usage and maintenance recommendations, and notifications concerning safety warnings or product recalls. Registration is not required to claim your limited warranty.

Two (2) Year Limited Consumer Product Warranty

Arovast Corporation ("Arovast") warrants that the product shall be free from defects in material and workmanship for a period of **2 years from the date of original purchase** ("Limited Warranty Period"), provided the product was used in accordance with its use and care instructions (e.g., in the intended environment and under normal circumstances).

Your Limited Warranty Benefits

During the Limited Warranty Period and subject to this limited Warranty Policy, Arovast will, in its sole and exclusive discretion, either (i) refund the purchase price if the purchase was made directly from the online Levoit store, (ii) repair any defects in material or workmanship, (iii) replace the product with another product of equal or greater value, or (iv) provide store credit in the amount of the purchase price.

Who is Covered?

This limited warranty extends only to the original consumer purchaser of the product and is not transferable to any subsequent owner of the product, regardless of whether the product transferred ownership during the specified term of the limited warranty. The original consumer purchaser must provide verification of the defect or malfunction and proof of the date of purchase to claim the Limited Warranty Benefits.

Be Aware of Unauthorized Dealers or Sellers

This limited warranty does not extend to products purchased from unauthorized dealers or sellers. Arovast's limited warranty only extends to products purchased from authorized dealers or sellers that are subject to Arovast's quality controls and have agreed to follow its quality controls. Please be aware, products purchased from an unauthorized website or dealer may be counterfeit, used, defective, or may not be designed for use in your country. You can protect yourself and your products by making sure you only purchase from Arovast or its authorized dealers.

If you have any questions about a specific seller, or if you think you may have purchased your product from an unauthorized seller, please contact our Customer Support Team via support@levoit.com.

What's Not Covered?

- Normal wear and tear, including parts that might wear out over time (e.g., batteries, filters, cleaning brush, essential oil pads, etc).
- If the proof-of-purchase has been altered in any way or is made illegible.
- If the model number, serial number or production date code on the product has been altered, removed or made illegible.
- If the product has been modified from its original condition.
- If the product has not been used in accordance with directions and instructions in the user manual.
- Damages caused by connecting peripherals, additional equipment or accessories other than those recommended in the user manual.
- Damages or defects caused by accident, abuse, misuse, or improper or inadequate maintenance.
- Damages or defects caused by service or repair of the product performed by an unauthorized service provider or by anyone other than Arovast.
- Damages or defects occurring during commercial use, rental use, or any use for which the product is not intended.
- If the unit has been damaged, including but not limited to damage by animals, lightning, abnormal voltage, fire, natural disaster, transportation, dishwasher, or water (unless the user manual expressly states that the product is dishwasher-safe).
- Incidental and consequential damages.
- Damages or defects exceeding the cost of the product.
