## USING YOUR AIR PURIFIER (CONT.)

### About the Filter

This air purifier uses a 3-stage filtration system to purify air.

#### A. Pre-Filter

- Captures large particles such as dust, lint, fibers, hair, and pet fur.

#### B. Main Filter

- Traps small particles such as fine dust, smoke particles.

#### C. Activated Carbon Filter

- Physically adsorbs smoke, odors, and fumes.

## USING YOUR AIR PURIFIER (CONT.)

### Humidity

Moisture may damage the filter. This air purifier should be used in an area with a humidity level below 85% RH. If you use the air purifier in excessively humid areas, the surface of the filter will become moldy.

**Note:** *Water or moisture will allow mold to grow. To solve a mold problem, get rid of the source of the moisture and clean up the mold.*

### Essential Oils

**Do not** add essential oils to the air purifier or filter. The filters will become damaged by the oil and will eventually release an unpleasant smell. **Do not** use oil diffusers near the air purifier.

# CARE & MAINTENANCE

## Cleaning the Air Purifier

**Note:** Do not clean with abrasive chemicals or flammable cleaning agents.

1. Unplug before cleaning.
2. Wipe the outside of the air purifier with a soft, dry cloth. If necessary, wipe the housing with a damp cloth, then immediately dry.
3. Vacuum the inside of the air purifier.

## Cleaning the Sensor Cover

If the air quality indicator does not seem to be accurate, clean the sensor cover.

1. Remove the sensor cover. [Figure 2.1]

**Note:** The sensor cover has a sponge inside to protect the air quality sensor from large particles.

2. Wipe the cover with a dry cloth. Wash the sponge with clean water, then dry.
3. Replace the sponge into the sensor cover, and then replace the sensor cover.

**Note:** Do not throw away the sponge. If the sponge is not in the sensor cover, the air quality sensor may not work correctly.

Figure 2.1

## CARE & MAINTENANCE (CONT.)

### When Should I Replace the Filter?

You may need to replace your filter if you notice:

- Increased noise when the air purifier is on
- Decreased airflow
- Unusual odors
- A visibly clogged filter

#### Note:

- To maintain the performance of your air purifier, **only** use official Levoit filters. To buy replacement filters, visit Levoit's online store. Go to [levoit.com](https://levoit.com) for more information.
- Remember to reset  after changing the filter.

### Replacing the Filter
